### Teachers' Corner

**Discipline: The Virtue of Each and Every Student**  
By Mahendran, TGT English

Discipline is the cornerstone, the bedrock, and the linchpin that holds our academic, personal, and professional lives together. It is the hallmark of every successful student, the key to unlocking our full potential, and the foundation upon which we build our excellence.

As students, we are the master architects of our own destiny. We have the power to design our own future, to craft our own success. But, this power is not without responsibility. We must wield it with discipline, with focus, and with determination.

Discipline is not just about following rules and regulations; it's about cultivating self-control, responsibility, and a strong work ethic. It's about being accountable for our actions, our words, and our deeds.

In conclusion, discipline is the virtue that separates the ordinary from the extraordinary. It's the key to achieving excellence and unlocking our full potential. Let us make a conscious effort to cultivate discipline in our daily lives and become the best version of ourselves.
